The above are the minimal requirements to go through any open water course taught by professional instructors. Your course should be all-inclusive without hidden fees at a price no more than \$600.00 We believe in a group setting you do not get the personal attention you deserve! That's why all of our classes are one on one! The ability to try a piece of equipment before you buy it, and the option to exchange it, should also be mandatory. Scuba Center's philosophy is that it is important that you learn to dive in a properly fitted total diving system. If you are not getting trained in a total diving system then you are not getting the personalized attention you deserve. Our mission is for you to have fun while becoming *a safe and comfortable diver!*
